COMPONENT SOLUTIONS
FOR THE SOLAR INDUSTRY

Problem Solving -
It's in our DNA

JETPRESS.COM

COMPONENT SOLUTIONS FOR THE SOLAR INDUSTRY

Established in 1977, JET PRESS is a leading supplier of fasteners, industrial components and bespoke solutions. We work closely with our customers to build long-term relationships and deliver value to their projects.

ADD OUR EXPERTISE TO YOUR SOLAR PANEL PROJECT

Many of our components are already in use in solar panels and photovoltaic applications around the world. We provide everything from single component solutions to multi-component sub-assemblies and each component can be single or multiple material. For example, we use plastic, aluminium and carbon steel in our solar mounting system.

You can also benefit from our expertise in Value and Reverse engineering along with ways we can help you save costs in production, maintenance, inventory and admin.

PROBLEM SOLVING – IT'S IN OUR DNA

With over 20,000 standard line items in stock we can often supply what you need the next day. If we don't stock what you need, we can source it from our global web of suppliers.

If we can't source the right solution, we will work with you to design, prototype and manufacture exactly what is required for your application.

COMPONENT SOLUTIONS FOR THE SOLAR INDUSTRY

Whether you require a single part or multi component assembly, our team of dedicated designers and engineers are here to work alongside you to find the best solution for your project.

OUR EXPERIENCE - YOUR OPPORTUNITY

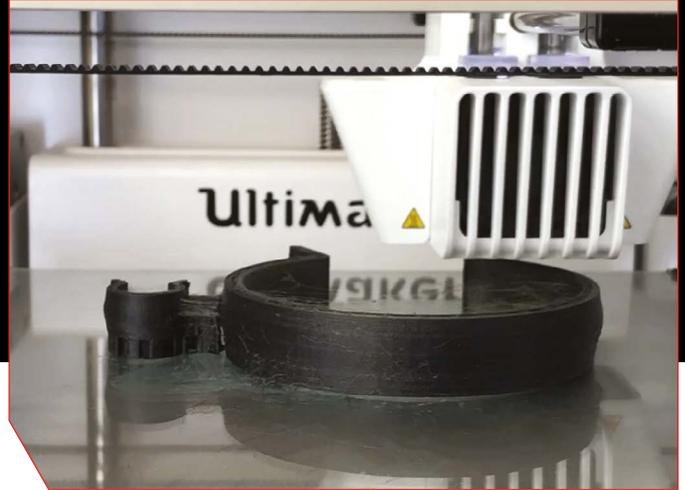

Whether panels are mounted on the ground, on roofs, floating on water or in any number of places, most of the challenges remain the same. Panels have to be fixed in place and cables must be managed. We have a wide range of solutions for all these jobs and anything else your application requires, including electrical grounding components for solar panels.

JET PRESS carries a range of parts that have been designed specifically for these tasks. We also have fixings more often used in the automotive and other industries that can be used as solar panel fasteners and for solar panel cable management. Our team will work with you to find the best existing solution or design and manufacture exactly what you need.

COMPONENT SOLUTIONS FOR THE SOLAR INDUSTRY

We are committed to consistently providing our customers with a high level of service and finding the solution that our customers are looking for.

SOLVING YOUR APPLICATION ISSUES

With over 20,000 stocked products, we can identify the fastener or component for your application and if we don't stock the right part, we can design and manufacture exactly what you need.

SAVING YOU MONEY

Problem-solving involves delivering the most cost-effective solution. We factor in manufacturing costs, assembly time, maintenance, weight saving, material costs and recycling, along with the cost of the part.

SAVING YOU TIME

We understand that you have deadlines. Share your schedule and milestones with us and we will do everything to make sure you deliver on time.

MANUFACTURING METAL & PLASTIC PARTS

We specialise in manufacturing high-quality metal and plastic components. With decades of expertise, we deliver precision-engineered solutions that meet the most demanding industry standards. Our commitment to quality, innovation, and customer satisfaction makes us a trusted partner for a wide range of industries and applications. Whether you need custom-made components or standard parts, we have the manufacturing capabilities and experience to meet your needs with excellence.

COMPONENT SOLUTIONS FOR THE SOLAR INDUSTRY

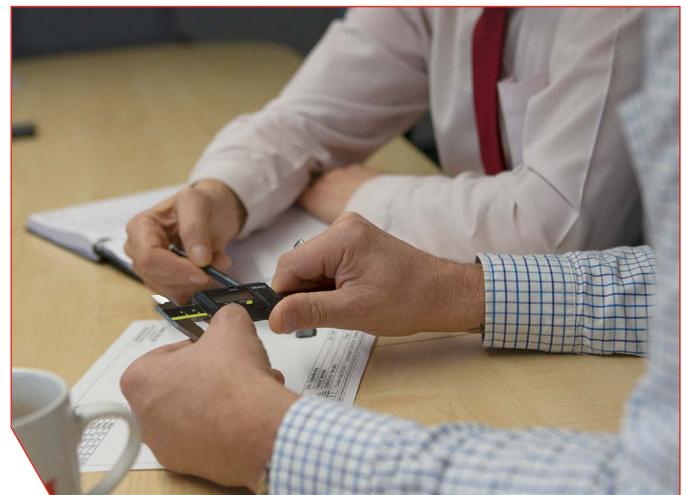

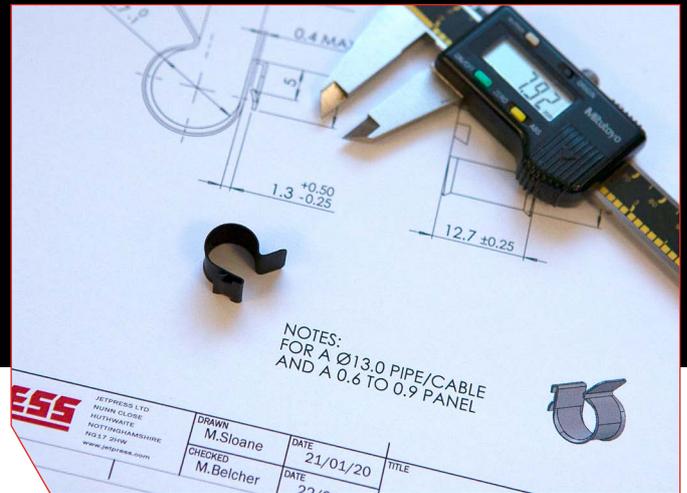

Through our global supply chain, in-house engineering and development expertise, we help lower the risk, cost and complexity of our customers' supply chains.

QUALITY ASSURED

We meet a wide range of quality standards for industry and will support you with all the documentation you require to demonstrate quality compliance.

- ISO9001:2015
- ISO14001:2015
- ISO45001:2018
- Production Part Approval Process (PPAP)
- Initial Sample Inspection Reports (ISIR)
- Failure Mode and Effect Analysis (FMEA)
- International Automotive Task Force (IATF) - in progress

CUSTOMER SERVICE

Our team is made up of friendly, helpful experts. They are all keen to find the right part for you and deliver it when and where you need it from our distribution centres in the UK and the EU. Your dedicated Account Manager will work closely with you to ensure you receive the highest levels of service.

SUSTAINABILITY

We believe the Circular Economy is one crucial way we can help to save the planet. This is all about reusing parts or recycling fasteners to make new components. We can provide details of the recycled content in most fasteners and advise on end-of-life recycling.

COMPONENT SOLUTIONS FOR THE SOLAR INDUSTRY

JETPRESS

We don't just supply Engineered Fasteners, Components and Hardware, we deliver value to our customers and suppliers by building mutually beneficial relationships.

VALUE-ADDED BENEFITS

Our team will identify ways of working with you that will improve your production process. JET PRESS brings this wealth of knowledge and experience to your project, supported by our comprehensive services:

- Kitting and packaging - all the elements you need for an assembly
- Stock holding and stock management solutions
- Spread costs
- Sub-assemblies and in-house reworking
- Reduce production and installation time
- Shorten supply chain
- Avoid multiple supplier management costs
- Special packaging
- Sample service
- CAD models/technical drawings

OUR BRANDS

We work with some of the leading brands in the Automotive sector. We are appointed by these brands as an official distributor. In many cases we have access to the research and development teams who work for these brands. We can use these resources to help you overcome complex challenges.

CONTACT US

Success over the last 40 years has been delivered by the people at the heart of our business. The relationships they've established and nurtured is why we exist and why we're different. We're in it for the long-term, as a partner in the success stories of our customers and suppliers alike. Our business, any business is people.

Please contact us, our experienced team of engineers is here to support application specific enquiries.
